

Tektronix 694C

Performance

Extend the life of the 3 GHz Tektronix 694C by expanding its performance with ScopemaX

- ◆ Boost the bandwidth to 12.5 GHz
- ◆ Increase the data rate measurement capability to beyond 3 Gb/s
- ◆ Enjoy the powerful jitter and signal integrity software included on the system

Bandwidth

Tektronix 694C Data Rate Performance

The examples below show before and after performance looking at a K28.5 data pattern at increasing data rates. ScopemaX more than doubles your capabilities for less than half the cost of a new real-time scope.
